

LIVERFREE®

Better liver and gut health

- Protects the liver against overcharge or toxic challenges.
- Increases the absorption of nutrients.
- Promotes better intestinal development.

PRODUCT DESCRIPTION

LIVERFREE® is a natural feed additive that protects the liver, improves fat emulsification, helps control intestinal infections and improves intestinal structure and microflora.

INDICATIONS

LIVERFREE® is indicated to improve animals' health and productivity under challenging conditions caused by toxins, metabolic dysfunction, deficient digestibility and stress situations.

ADMINISTRATION

Administer orally mixed with feed.

RECOMMENDED DOSE

50 g - 250 g per ton of feed,
or at the discretion of the nutritionist in charge of feed formulation.

PACKING

25 kg, 5 kg, 1 kg.

SPECIES

Poultry, Swine.
