

BEDGEN 40® ST RUMINANTS

Natural digestion enhancer

- Improves nutrients absorption.
- Detoxifies the body from harmful substances.
- Protects against metabolic diseases linked to the excess of ketones.

PRODUCT DESCRIPTION

BEDGEN 40® ST RUMINANTS is a natural feed additive based on standardized plant extracts with an enhancing effect on the digestive system. The different components act at different levels, increasing the organism's capacity to use nutrients while protecting it from toxic situations. It's a natural way to increase productivity without compromising metabolic balance.

INDICATIONS

BEDGEN 40® ST RUMINANTS is recommended to reduce toxic or metabolic challenges caused by high production stress (peak of milking or fast growth) or digestive insufficiency.

ADMINISTRATION

Administer orally mixed with feed.

RECOMMENDED DOSE

1 kg - 2 kg per ton of feed,
or at the discretion of the nutritionist in charge of feed formulation.

PACKING

25 kg.

SPECIES

Ruminants (Ovine, Caprine, Bovine).
