

# BEDGEN 40 PREMIX SFA

( Concentrate )

## natural hepatoprotective effect

*protects* the liver and helps it recover

*increases* production and release of bile

*helps* eliminate mycotoxins and other toxins from the organism

*stimulates* immune response and helps reduce mortality

## PRODUCT DESCRIPTION

BEDGEN 40™ PREMIX SFA CONCENTRATE is a natural feed additive that modulates the liver activity, enhancing its detoxification capacity as well as its ability to produce bile and metabolize nutrients, allowing animals to express their full productive potential.

## INDICATIONS

BEDGEN 40™ PREMIX SFA CONCENTRATE is indicated to improve animals' health and productivity under challenging conditions caused by toxins (among which those produced by fungi), metabolic dysfunction, deficient digestibility and environmental, social or infectious stress situations.

## COMPOSITION

Cynara Extract  
Choline Chloride  
Excipients

## ADMINISTRATION

Administer orally mixed with feed.

## RECOMMENDED DOSE

150 g per ton of feed, or at the discretion of the nutritionist in charge of feed formulation.

## PRESENTATION

25 kg, 5 kg, 1 kg.
