

AXIS DP - Agriculture range

POWERFULL DEGREASER-CLEANER FOR AGRICULTURE

- **High efficiency on industry and food greases.**
- **Compatible with food contact.**
- **May be used with a foam gun.**
- **Pasivating action prevent metals from oxydation.**
- **Emulsifies and dissolves persistent oils and greases.**
- **Very concentrated, use at 1%.**
- **Biodegradable and non corrosive product.**

PHYSICOCHEMICAL CHARACTERISTICS:

- Clear yellow limpid and odourless liquid.
- **Non-flammable.** Flash point : none.
- Density : $1,04 \pm 0,01$.
- Refractive index : $1,360 \pm 0,005$.
- Concentrated product's pH : > 12 (pH à 10% : $12,5 \pm 0,5$; pH at 1% : $9,5 \pm 0,5$).
- Biodegradable at more than 90%.
- Fully water miscible.
- Freezing point : approximaty - 2°C.
- Amonia solution based on degreasing material, corrosion inhibitor, surfactant and wetting agents and lime stone sequestrant.
- **Axis DP** use is common in agriculture. Its wetting and foaming proprieties allows a foam gun spraying on vertical surfaces with a perfect "traceability" - visual - and an increased contact time.
- Not corrosive. Ideal either for naked metallic nor painted surfaces. Corrosion inhnbitor. Does not jam clamps - in electroplated steel or aluminium. Good results with sprayers and plant-health ramp.
- Active on industrial greases and plant-health product.
- Degreaser and cleaner.
- Passiver - poststone steels corrosion des aciers: use **AXIS DP** at 10 % . Do not rinse parts.
- Safe to use on almost all surfaces at the recommended doses - steel, stainlesssteel, plastics, tiling.
- Prior test in case of use on aluminium, light alloy and some paint coating of which aspect can modified by the use of concentrated doses.
- Actifve in hard water - limestone.
- Food contact compatible.

SAFETY / ENVIRONNEMENT :

- **More than 90% biodegradable.**
- **AXIS DP** is classified: Irritant.
- In case of eye contact rinse out thoroughly with water and consult a eye specialist doctor.
- It's highly recommended to wear appropriate gloves while handling the product concentrated or for frequent or long-lasting use.
- **AXIS DP** components are listed in the list of the french modified ministerial decree dated 08/09/99 modifié, regarding the cleaning material product which may come in **contact with foodstuff**.

INSTRUCTION FOR USE :

- Dilute **AXIS DP** between 0,5 % and 10 % in water according to the application mode and the the dirt level:
 - * use by spraying on the walls and floors : between 1 and 5 %
 - * use in steam or hot water machine on engines and bodywork grape harvester : 0,5 % à 2 %
 - * use by immersion before painting or label peel off : between 5 and 10 %
 - * use for the passivation of metallic parts : 10 %
