

BREWERS' YEAST-BT

Brewers' yeast bound to brewers' grains – for effective support of digestion and metabolism

The unique composition and structure of Leiber® Brewers' Yeast-BT not only ensures very good processing and storage properties, but in particular guarantees optimal acceptance of the feed. This in turn has a positive effect on the health of ruminants. Due to the gentle

drying of the brewers' yeast with the dietetic components of the brewers' grains carrier, Leiber® Brewers' Yeast-BT induces a particularly effective support of the rumen metabolism. In addition, the high content of protected protein in the brewers' grains (approx. 46% UDP) promotes the metabolism.

Stabilisation of rumen pH

Support of the metabolism

Improvement in fertility

Improvement in hoof health,
skin & hair, shiny coat

Brewers' Yeast-BT recommended usage per animal/day:

♦ for dairy cows	150–500g
♦ for fattening bulls	150–500g
♦ for calves	50–100g
♦ for sheep/goats	50–100g
♦ for camelids	50–250g
♦ for wild animals	50–100g

Brewers' Yeast-BT ingredients:

40% brewers' yeast (*Saccharomyces cerevisiae*)
bound to 60% brewers' grains

Analytical constituents and levels

Crude protein	31.0%
Crude oils and fats	7.0%
Crude fibre	9.5%
Crude ash	5.5%

Essential amino acids

Lysine	1.8%
Methionine	0.6%

Minerals

Sodium	0.1%
--------	------

Physical properties

Structure	free-flowing product
Colour	light to medium brown
Smell	typical of brewers' yeast
Bulk density	560kg/m ³

Brewers' Yeast-BM – The alternative feeding recommendation

- ♦ for the support of digestion and metabolism
- ♦ 40% brewers' yeast bound to 60% brewers' malt sprouts
